Especially is this true in the wards from which the least is usually expected. Those | ality who are looking after the interests of the | \$10 to \$10 Elliott will have 900 plurality. Republican ticket in the Fifteenth ward declare that they will reduce the Democratic majority, which ranges anywhere from 800 to 1,500, to 400, and some of the more sangulne insist that they will do even better. In the Tenth ward, where Mayor Taggart received nearly 500 majority two years ago, but which only gave Bryan 29, the Republican workers calmly and dispassionately assert that they will give Mr. Bookwalter and the rest of the Republica ticket a majority, and this despite the fact that the Tenth ward is the abiding place of James L. Keach. In the Ninth, Twelfth, Thirteenth and Fourteenth wards Republican managers declare that the conditions

are better than ever before. Among the North Side wards it is hard to determine which is in better shape, as the Republican organization is perfect in all of them. It is probable, however, that the Seventh ward will show as large, if not larger gains, for the Republican ticket than any other. The work in this ward has been so persistent and systematic as to insure the fact that nothing has been left undone. The same condition may be said to exist in the First and Third wards, and the Second ward, which Democrats have termed apathetic, undoubtedly will surprise even the Republican managers with the big majority it will roll up for the ticket. The conditions in this ward have materially changed since two years ago, the disaffection and apathy of the voters having entirely disappeared. The precinct workers return most glowing reports to the city committee and declare that the conditions could not be better. The Fourth and Fifth wards, from present indications, will show large Republican gains, and the Sixth ward, which Charles Polster has asserted that he carried in his vest pocket, is expected to furnish the surprise of the campaign. This ward is thicky populated with negroes, and even the almost to a man for the Republican ticket. Polster and his gang have tried in vain to disaffect the colored vote in this ward, and their promised support to the Republican ticket has remained united and steadfast throughout the entire campaign. The best evidence of the inability of the Democrats to affect the colored vote lies in the fact that they have openly abused them on the stump, thereby seeking to gain strength among a certain class of voters who are popularly supposed to have a race prejudice against the negroes. The Republicans have perfected the best arrangements they have ever had for getting the vote out on election day, and with the party majority, it looks as if the end of Taggartism is in sight.

THE BETTING BOARDS.

INTEREST AT ANDERSON.

The Local Election Is Attracting Very Great Attention. Special to the Indianapolis Journal.

ANDERSON, Ind., Oct. 6 .- The election in Indianapolis is creating unusual interest among Republicans of Anderson and Madison county. It is the universal opinion, and shared by many Democrats, that the election of Bookwalter would be of benefit not only to Indianapolis, but to the State at large. There has been quite a little betting here, and for the first time in a long while Republicans are asked to give odds on their candidates. There are a number of Indianapolis men in Anderson who will return to vote for the Republican candidate on Tuesday. The party leaders in Anderson feel that the election of Bookwalter will strengthen the Republican cause in Indiana and lend material strength to the party. On arrival at the landing a fleet of canoes were waiting to convey the guests to the shooting lodge, which is a five-mile paddle across the marsh slough. The canoe conveying the duke was guided by John Atkinson, premier guide of the Lake Manitoba shooting grounds, with Lord Minto in the bow, the other boats forming a fleet of honor. The party reached the shooting lodge about 5 o'clock. Elaborate preparations had been made for their entertainment there. The country is wild in the extreme, but the site selected for the shooting lodge is an ideal spot, and has the appearance of a shooting box. Outbuildings and a group of tents made a very pretty picture. The weather is perfect, and as game birds, particularly ducks, are plentiful, there are prospects of a splendid outing.
